### Azure Stack solutions

Extend Azure services and capabilities to your environment of choice—from the datacenter to edge locations and remote offices—with Azure Stack. Build, deploy, and run hybrid and edge computing apps consistently across your IT ecosystem, with flexibility for diverse workloads.

**Cloud-managed appliance**

## Azure Stack Edge

### Run edge-computing workloads

Get rapid insights with an Azure managed appliance using compute and hardware-accelerated machine learning at edge locations for your Internet of Things (IoT) and AI workloads.

Use Azure Stack Edge for:

- ✓ Machine learning at the edge
- ✓ Edge and IoT solutions
- ✓ Network data transfer from edge to cloud

[Learn more >](#)

## Hyperconverged infrastructure

## Azure Stack HCI

### Modernize your datacenter

Refresh your virtualization host using a hybrid and hyperconverged solution integrated with Azure.

Use Azure Stack HCI for:

- ✓ Scalable virtualization and storage
- ✓ Modernizing on-premises architecture
- ✓ Remote branch offices
- ✓ High-performance workloads

[Learn more >](#)

## Cloud-native integrated system

## Azure Stack Hub

### Use cloud services on-premises

Run your own private, autonomous cloud—connected or disconnected with cloud-native apps using consistent Azure services on-premises.

Use Azure Stack Hub for:

- ✓ Connected and disconnected scenarios
- ✓ App modernization

## See what 'the art of the possible' means to your business

Azure Stack is a portfolio of products that extend Azure services and capabilities to your environment of choice—from the datacenter to edge locations and remote offices. Build and deploy hybrid and edge computing applications and run them consistently across location boundaries. See how Azure Stack gives you the flexibility to address your diverse workloads.

**Azure.** Invent with purpose.

Financial services

Government

Manufacturing

Retail

Healthcare

### Accelerate innovation and help protect customer data

Reduce unused capital expenses, access on-demand capacity, and extend your geographic reach with a hybrid cloud strategy on Azure Stack.

#### Meet regulatory and data sovereignty requirements

Streamline compliance with industry, government, and company regulations by running cloud apps on-premises—and help keep your data, apps, and identities secure.

#### Modernize financial apps

Boost the efficiency of your mission-critical apps, help mitigate risks, make better business decisions, and personalize customer experiences with Azure services, containers, serverless, and microservices.

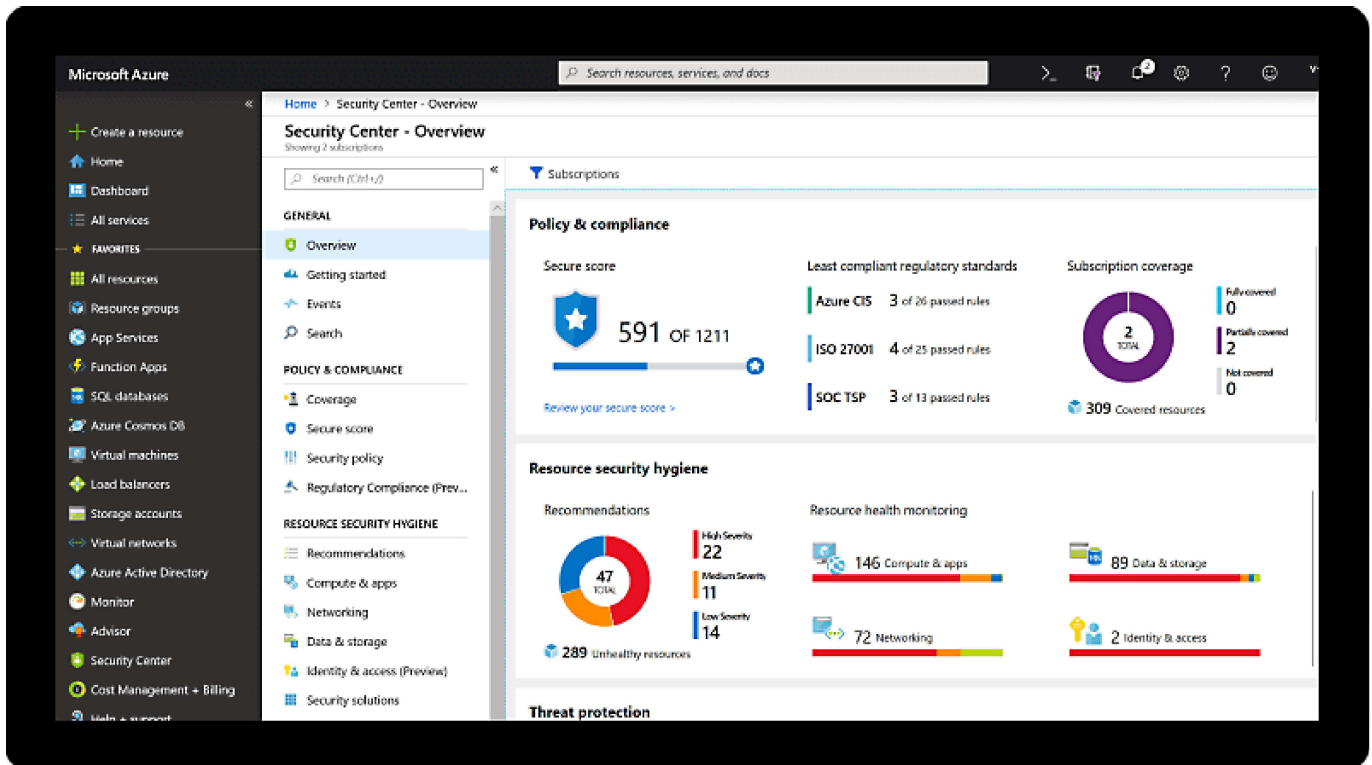

## Speed up cloud migration

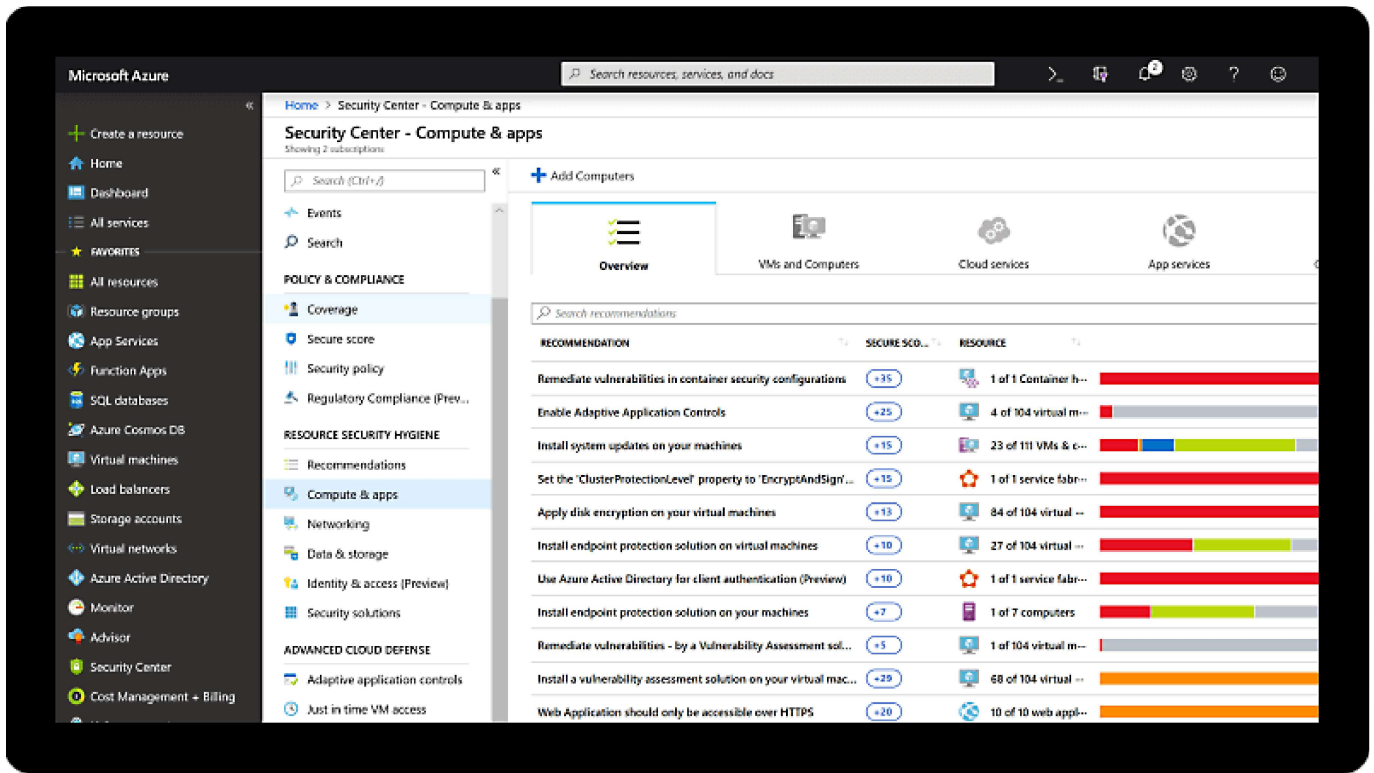

Simplify your transition to the cloud and run cloud apps in an on-premises environment with Azure migration tools, resources, programs, and training.

## Comprehensive security and compliance, built in

- ✓ Microsoft invests more than **\$1 billion annually** on cybersecurity research and development.

- ✓ We employ more than **3,500 security experts** who are dedicated to data security and privacy.

## Get started with an Azure free account

1

**Start free.** Get \$200 credit to use within 30 days. While you have your credit, get free amounts of many of our most popular services, plus free amounts of 55+ other services that are always free.

2

After your credit, move to **pay as you go** to keep building with the same free services. Pay only if you use more than your free monthly amounts.

3

**After 12 months**, you'll keep getting 55+ always-free services—and still pay only for what you use beyond your free monthly amounts.

## See how customers are using Azure Stack

"When we needed capacity, we pushed our workloads into the cloud. I didn't worry about waiting months for hardware. I knew I had capacity."

Rajeev Siddappa, VP Infrastructure, Molina Healthcare
